

THE UNCLE JIM SHOW

At an Uncle Jim show the main focus is on friendship as well as camaraderie between the kids and with everyone working at the school. While everyone is busy having a lot of fun, more important topics like character development, respect and being comfortable in your own skin are being touched on in a lighthearted way. There are plenty of opportunities for the kids to be a part of the show, both as audience members and even as guest performers on stage. The show is designed to have many moments where we can all stop for a second and find wonder, joy and amazement in even the smallest things that happen to us in everyday life. That is what every child will walk away carrying in their backpack after the show as they continue on in life.

THE PERFORMANCE WORKSHOP

Uncle Jim is also available to do a Performance Workshop in addition to his show. In the performance workshop Uncle Jim focuses on building “school esteem” through creativity, songwriting and fun! The workshop even touches on success principles needed in the great big world outside of the school by focusing heavily on community spirit and how to be helpful to others. The workshop works best for groups from 5 to 200 kids split up by age so that everyone gets the most out of their day of music, learning and fun!
